

If you are applying from outside the EU and you need a visa, we strongly recommend you to make an appointment with the embassy as soon as you receive the letter of acceptance. It often takes weeks before you get an appointment, and even more time until you have completed the visa process. We expect all students to be present at the latest shortly after the semester start and thus obtaining your visa in time is absolutely essential.

*The winter semester **2020-2021 starts on 26.10.2020**. Before the semester start, there will be mandatory preparatory courses (10 sessions each, every day within the indicated timeframe). The preparatory courses will be held partially online and partially in person:*

Academic English – September 28 - October 09, ONLINE

Biostatistics – October 12 - October 23, ONLINE and IN-PERSON

Mathematics and Informatics – October 12 - October 23, IN-PERSON

For purposes of your admission to the Master in Cognitive Science, you need to take a Skype interview with the program supervisors. You will receive a respective invitation with an assigned time slot. Please carefully read the instructions how to prepare for the interview.
