

## **Research Group Prof. Dr. Kristina Liefke**

I welcome theoretical/foundational and applied Master theses in any areas of my courses. These areas cover philosophy of communication, philosophy of information (esp. representation), philosophy of mind (memory/imagination, intentionality), and ontology. I am particularly interested in supervising theses on the following topics:

- memory and language
- episodic representations (see <https://www.pe.ruhr-uni-bochum.de/philosophie/ii/phil-inf/seer/index.html.en>)
- communication with pictures, comics, and film
- neurodivergent communication (its description and modelling)
- ontology engineering (see <https://doi.org/10.1017/9781009307789>)
